Purpose

This document presents the findings of manual QA testing performed on BrewDog's United States website, usa.brewdog.com - the online storefront for the UK-based craft brewery. Testing covered the site's core functions, including navigation, age/region verification, product browsing (beer, merchandise, and gift cards), cart and checkout, account and login flows, the bars/locations directory, informational content (Discover, Equity for Punks, Franchise), and the site footer.

The goal of this project was to identify functional, usability, and content defects across the site prior to release, to document them clearly for the development team, and to provide a data-driven summary of overall site quality and testing coverage, as well as a final conclusion of my findings. I included screenshots to validate the reported issues and to give the development team a clearer path for reproducing, prioritizing, and fixing the defects. This evidence-based approach helps everyone involved in creating and improving the site work together in harmony, which supports a stronger final product for the company.

Testing Methodology

Testing was performed manually across desktop and mobile versions of the site using multiple browsers, including Chrome, Edge, and Firefox, in both regular and incognito browsing sessions. This testing combined test cases executed and tracked in TestRail with exploratory testing used to surface additional defects. Every defect found - whether from a scripted case or exploratory testing - was logged as an individual issue in Jira with steps to reproduce, expected results, actual results, priority, and severity, so that the findings from both methods feed into a single, complete bug record for the site.

Application Overview

USA.BrewDog.com is the U.S. e-commerce and brand website for BrewDog, an international craft beer company based in the UK. The site allows visitors to browse and purchase non-alcoholic beer, merchandise, and gift cards; locate BrewDog bars; view the alcoholic beers the company crafts; find where products are available; check bar hours; and explore monthly events that help build a community around the brand. It also allows users to read about the company's brewing process, ingredients, and "Equity for Punks" community ownership program, as well as explore franchise opportunities.

Primary User Flows Tested

Homepage to product discovery, product detail, add to cart, and checkout; age-gate entry to region selection; account registration, login, and account management; bar locator search to bar details and booking/reservation; and footer/informational navigation (FAQs, shipping/returns, franchise, sustainability, careers). I also placed emphasis on accessibility, security, account login, saved statuses, customer service, and client protection by reviewing the Terms and Conditions and Privacy Policy pages. Additional testing covered advertising banners and purchasing options for all products offered.

Recommendations

Priority actions before release

My recommendations are to have the Dev Team go back and immediately fix the coding/site breaks on all the Critical and High Severity Bugs since these really do not allow the customer to reach the products and in turn the whole point of an E-Commerce site is for that exactly.

404 Site Map Errors: I highly recommend to have all the 404 error breaks fixed right away most importantly the products for purchase which are on High and Critical.

Wrong Redirections: must be fixed as well since can confuse the user and frustrate them and will end up not coming back to the site. This is my eyes is also super important.

Accessibility: I highly recommend to fix the Bugs here since:

A - The button is very hard to see.

B - The popup is very busy and hard to manage which is very uncomfortable.

C - When used on Mobile this was very unhelpful and also the laws for the Accessibility are almost impossible for the average user to find.

Let's not forget that if someone really needing of Accessibility tried and searching for, clicking and using the function they would be very very unhappy.

Contact Info: I very much recommend adding customer service info such as a phone number and a WhatsApp or a social media outlet to let the customer not feel alone after he completed his purchase.

USA Laws: This is a USA website all the Bugs surrounding that idea should be fixed.

Login/User/Signing out: I recommend taking the Bugs seriously and fixing right away. In this day and age if you aren't helpful or social media friendly you will not last.

Languages: Most of the USA has a very strong immigrant community and not offering other languages just loses traffic and sales please see my recommendation for these Bugs to be fixed as well.

Security: There is no way to verify the age of anyone that enters. I recommend to add a verification by showing an ID matching a DOB and having to ask security questions before finalizing purchase and some sort of filtering process upon entering the site.

Conclusion / Final Verdict

Overall site quality and release recommendation

The overall assessment for usa.Brewdog.com is that I would not launch this site live to the public as it has too many Bugs that are very harmful to the actual use of this site. This site was created to drive sales, advertise the product, bring in retailers and B2C commerce and connect the user to a larger world of Hotels, Bars and Events for this product. This will only cause the opposite to happen as the site is very unhelpful in purchasing or reaching anyone about it and in the USA where customer service is above all this site has none.

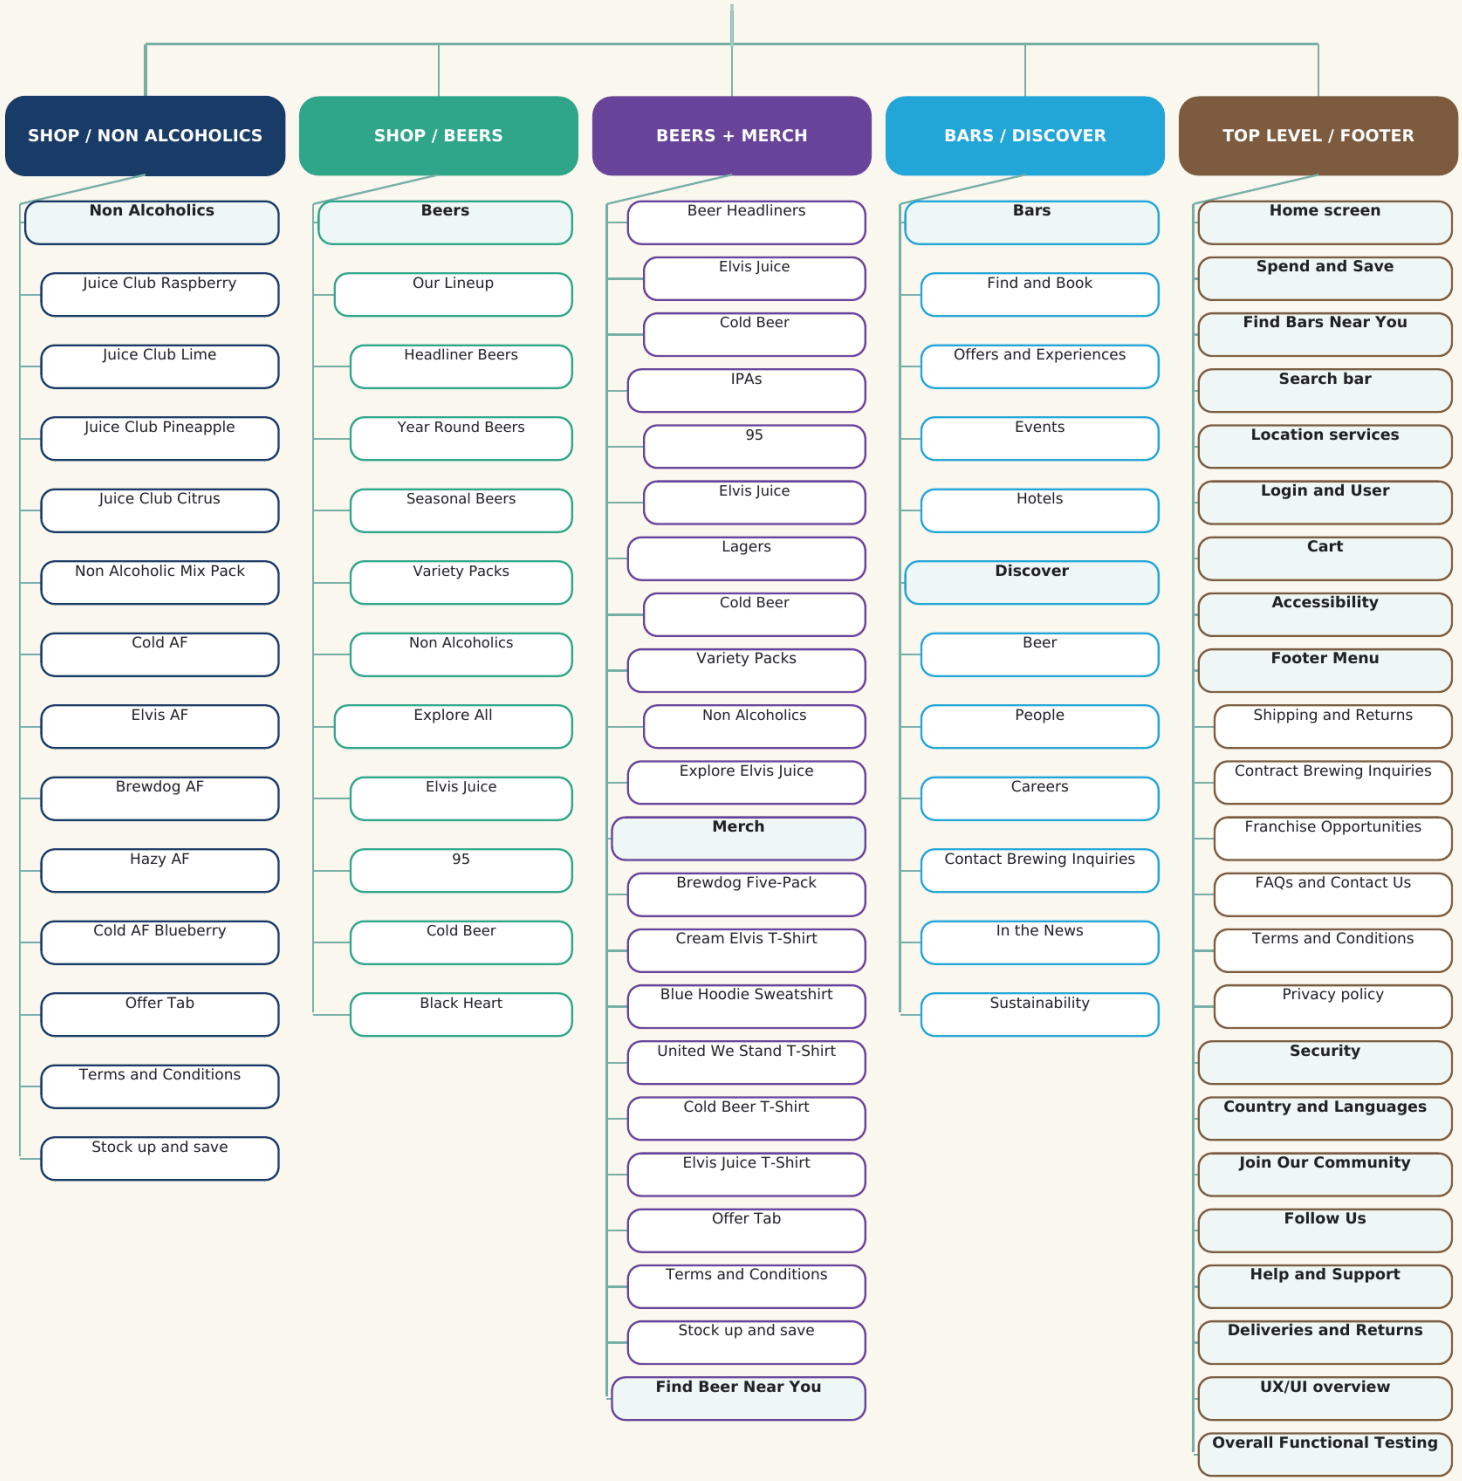

I give my final verdict as to shut the site down for maintenance and work on all major bugs. Normally I would say high and critical but once you shut this down I would fix moderate and above since I do not really believe it is being used that much as it is in its current state.

FINAL VERDICT

NO-GO - MAJOR FIXES REQUIRED BEFORE RELEASE

Bug Reports

Jira — USA.Brewdog.com QA Testing (native export)

Bug Reports

The pages below are the full exported Jira report, showing every bug exactly as documented in Jira: status, priority, severity, attachments, and description (steps to reproduce / expected / actual results).

Bugs by Severity — Quick Reference

Critical	High	Medium	Low	Total
6	**14**	30	**22**	**72**

Reading the Fields Below

Priority reflects how urgently a bug should be worked on relative to other open items (business impact, schedule). Severity reflects how badly the defect affects the application itself, independent of scheduling (from cosmetic issues up to a full blocker). A bug can be high priority but low severity, or the reverse — both fields are recorded for every issue below.

Every bug below is presented exactly as recorded in Jira, in the order exported.

[UBCQT-65] Multiple broken links are present throughout the website

Severity:	S5 - Cosmetic / Trivial

Description

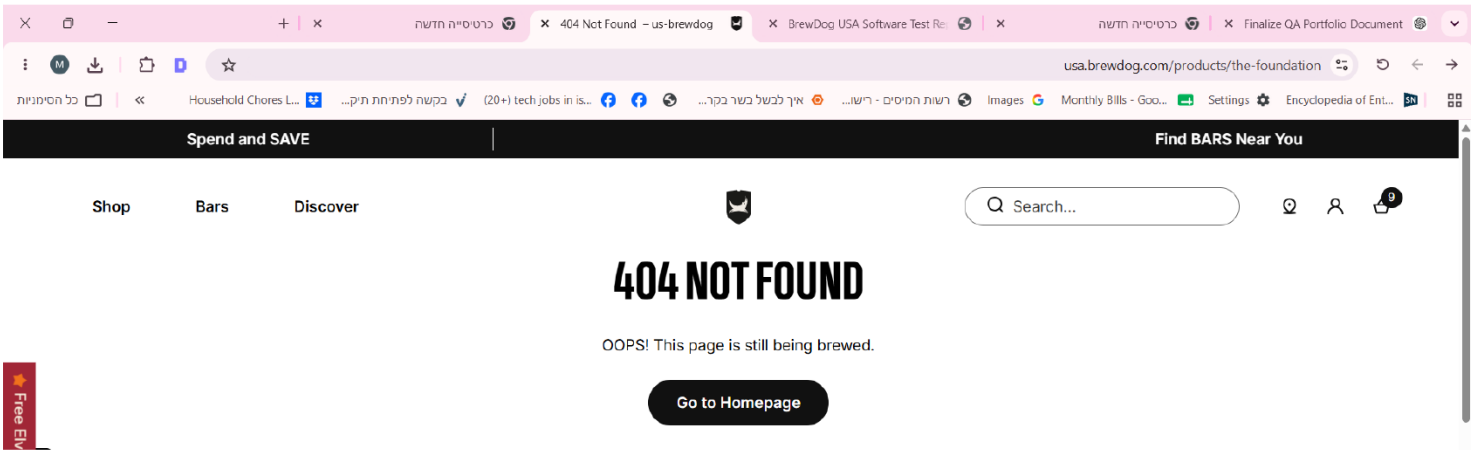

teps to Reproduce:

1. go to http://usa.brewdog.com
2. arrive at homepage and click on Shop
3. on top right in the drop menue choose Beer click on
4. another dropdpwn menu opens choose our lineup
5. Arrive at page and the second section is Year round Beers click on Ohio Pilsner
6. view the URL and check for broken links **Expected Results**:
   I expect to see correct links even on pages that end up in error code as that was the case with all the other 404s here

Actual Result:

The URL Link is broken and appears as:

https://usa.brewdog.com/products/the-foundation

4. click on it

Actual Results:

opens up but tyhe laws are all for the UK

Expected Results:

I expect the page to be a USA law terms since it is a usa website

GENERAL

You must be aged 18 or over to purchase alcohol. It is an offence to sell alcohol to anyone under the age of 18 in the UK. When ordering and making a payment you will be required to confirm that you are aged 18 or over.

If your order is a gift and contains alcohol, the recipient must also be aged 18 years or older. An adult over the age of 18 will be required to sign for delivery.

We aim to ensure the prices shown are correct. If an error does occur, we will make every effort to contact you to confirm if you would like to proceed with the order at the correct price.

While every effort is made to supply all items listed online, there are instances where this may not be possible. In

Severity:	S2 - Major

Description

Steps to Reproduce:

1. Search for a tab named Accessibility on homepage
2. scroll to the bottom where it is usualy found in most sites
3. Find Icon floating to the left under Koozie Banner
4. click on it
5. Accessibility pop up screen pops us

Actual Results:

A very small screen pops up with so much information that you have to keep scrolling and very hard on the eyes as so much inofrmation stuffed into one place

Expected Results:

I expect there to be an easier way to find the Accessibility since the icon has no way of tellking me what it is andmuch more user freindly or at least to have its own webpage open up

Original estimate:	Not Specified		

Attachments:	Screenshot 2026-09-01 212216.png
Severity:	S2 - Major

Description

Steps to Reproduce:

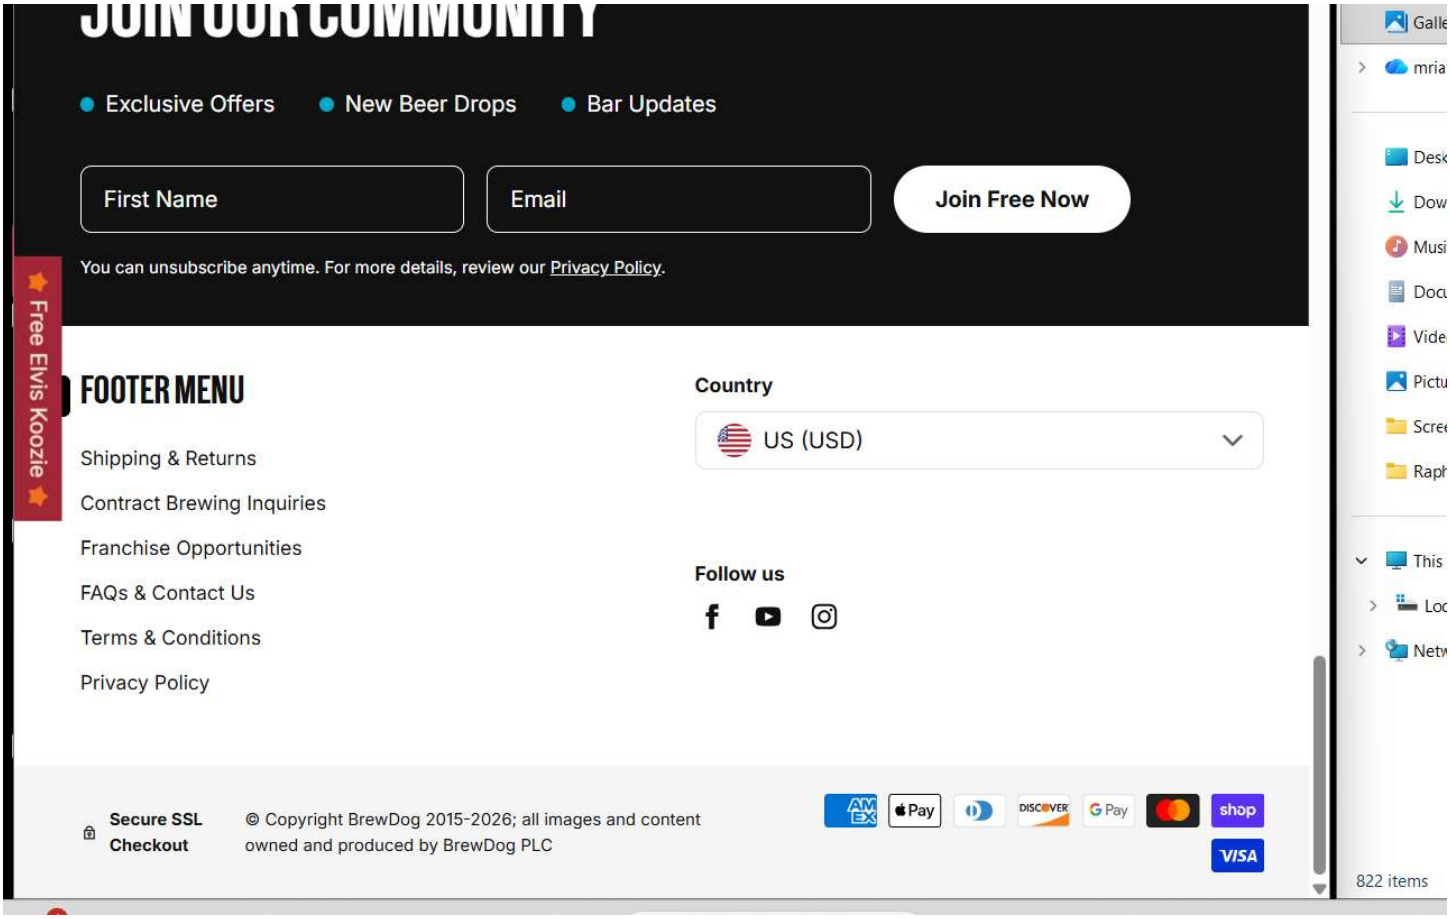

1. Search for a tab named Accessibility on homepage
2. scroll to the bottom where it is usualy found in most sites
3. find it hidden by Free Koozie banner

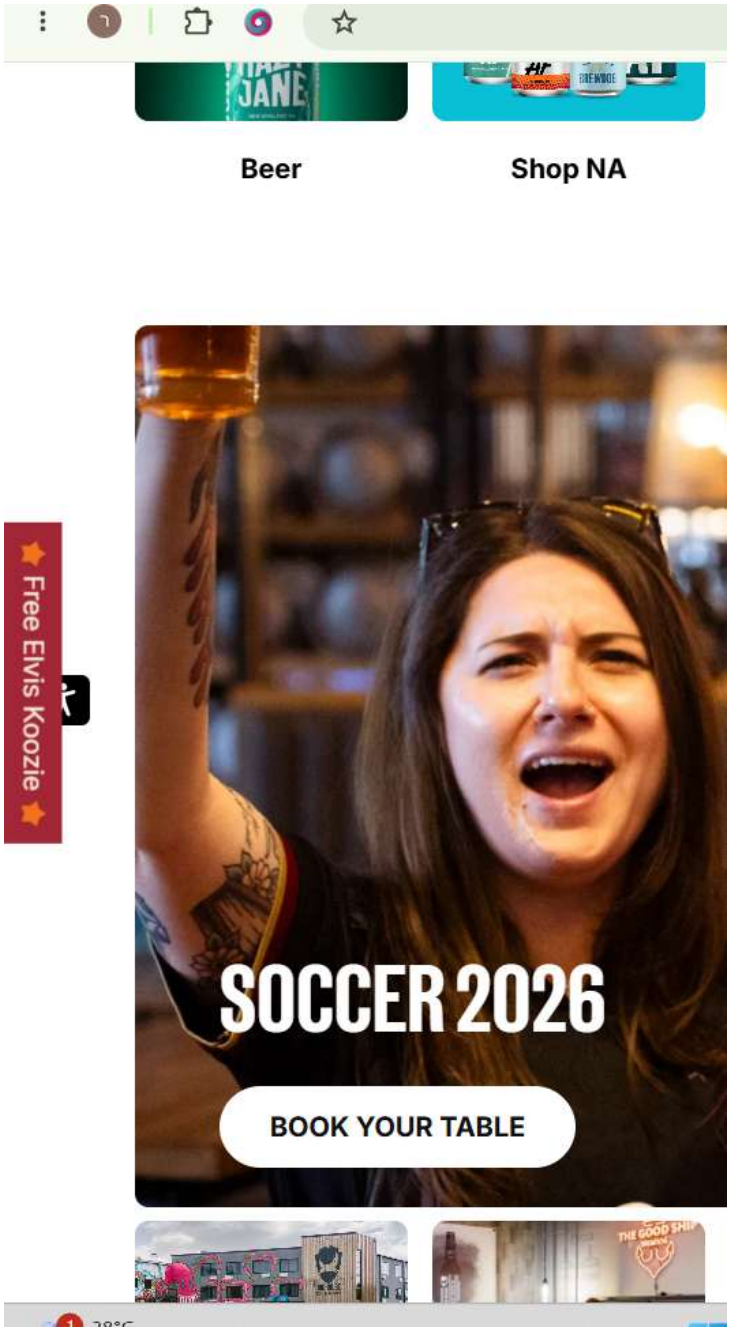

Actual Results:

It is a icon that floats all the way to the left of the screen and is at all times covered by the banner no matter if you scroll up or down on all pages of site

Expected Results:

I expect there to be an easier way to find the Accessibility since the icon has no way of tellking me what it is and by accident I clicked on it and to not have it covered by other banners

Attachments:	Screenshot 2026-09-01 211710.png
Severity:	S4 - Minor

Description

Steps to Reproduce:

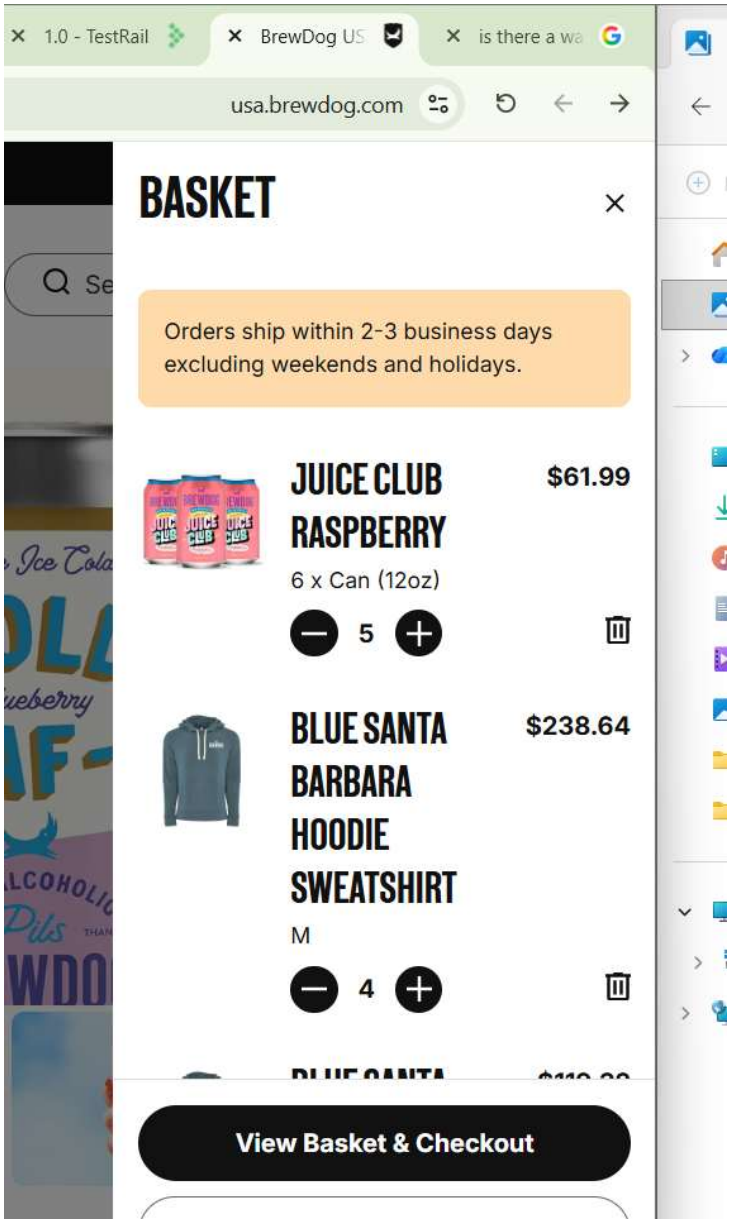

1. go to http://usa.brewdog.com
2. arrive at homepage and click on Shop
3. dropdown menu opens up click on Merch
4. Add Items to cart
5. go to beer options
6. add items to cart
7. try and purchase the items
8. Arrive at checkout page
9. click on checkout
10. Shows the types of cuurencies I can choose from to make it easier on my Banking

Actual Results:

It does not show you any currency other then the USD unless you cahnge country of delivery and then must choose currency of that country

Expected Results:

I expect this to be a an option to choose whatever currency i would like

Resolution:	Unresolved	**Votes:**	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Severity:	S2 - Major

Description

Steps to Reproduce:

1. go to http://usa.brewdog.com
2. arrive at homepage and click on Shop
3. dropdown menu opens up click on Merch
4. Add Items to cart
5. go to beer options
6. add items to cart
7. try and purchase the items
8. Arrive at checkout page
9. click on checkout
10. Shows restrictions based on locations: ***EXCLUDING*** **AK, GA, HI, ID, KS, MI, MS, ND, NH**

Actual Results:

It does not show this before you get to checkout so only when ready to pay you see restrictions

Expected Results:

I expect this to be a disclaimer on all items or product pages as well as on the homepage so until now i would have stopped going through site had I known that I cannot order also there is no explanation on why these locations are restricted.

[UBCQT-48] Checkout does not enforce age restrictions Created: 01/Sep/26 Updated: 03/Sep/26

Severity:	S2 - Major

Description

Steps to Reproduce:

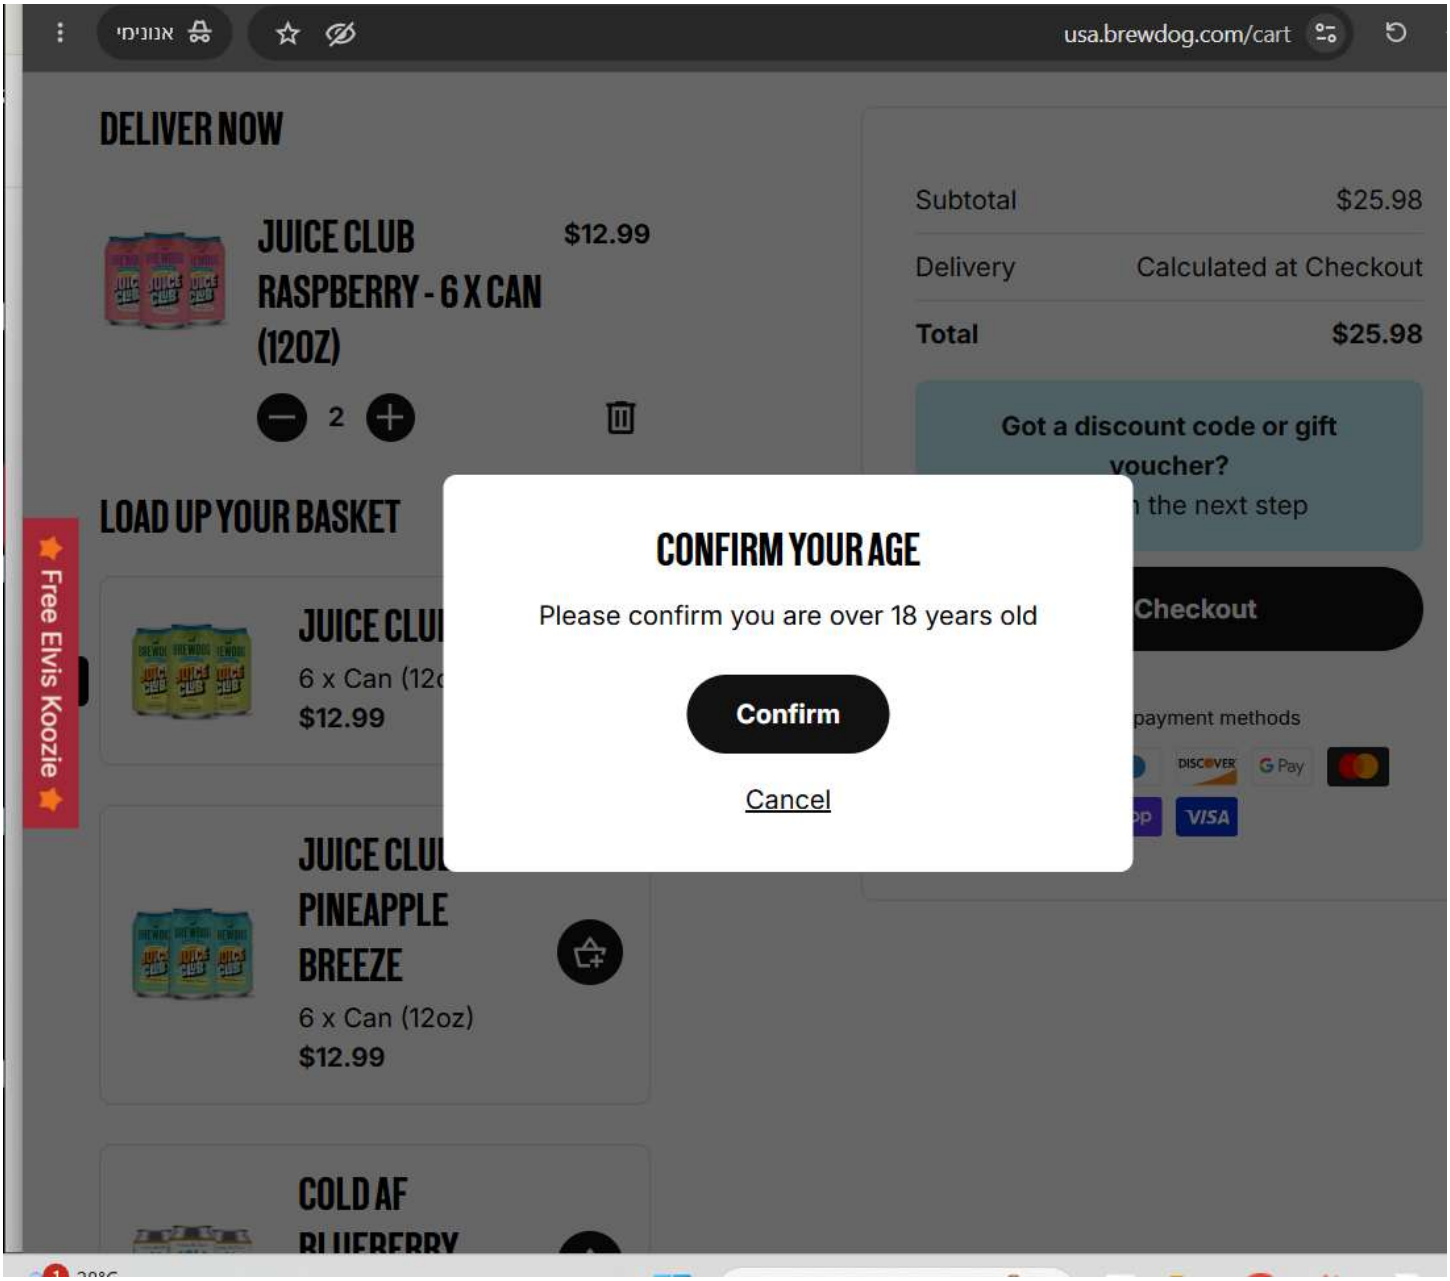

1. go to http://usa.brewdog.com
2. arrive at homepage and click on Shop
3. dropdown menu opens up click on Merch
4. Add Items to cart
5. go to beer options
6. add items to cart
7. try and purchase the items
8. Arrive at checkout page
9. click on checkout

Actual Results:

It allows me to add to cart without any problem and then It asks me to confirm that I am over 18 but has no way of making sure i am not 12 and just pressing on confirm

Expected Results:

If there is a need for an age restriction then it should be 21 as this is a USA site and there must be a way of requesting confirmation like a picture of an ID etc..
